PRE-UNI Program

a model for Grade XI & XII

Pathshala Pre-Uni Program

Pathshala Nepal Foundation, applauded for its 17 glorious years of contribution to quality school-education, has been running Pathshala Pre-Uni Program (Grade XI & XII) since 2021 AD. Motivated by the ethos "Sarathak Sikshya: Sarathak Jiwan", Pathshala Pre-Uni Program passes on value-based education, enhancing every student's interaction skill, life skills, and critical thinking abilities. Our program includes a thorough understanding of a wide range of global competencies and broadens the learners' knowledge of diverse cultures and communication. Along with the prescribed curriculum of the National Education Board (NEB), Pathshala Pre-Uni Program incorporates the principles of the International Baccalaureate (IB) and Cambridge Assessment International Education (CAIE): cognitive, social, emotional, and moral approaches to education, ensuring the attributes of inquisitiveness, knowledge, self-reliance, reflection, and care among the students.

Our Vision

Pathshala Pre-Uni Program envisions transforming young students into life-long learners, capable of acquiring, demonstrating, and appreciating knowledge and skills that will enable them to participate in and impart national values to the global world by utilizing their full potential.

Our Mission

The mission of this program is to develop every aspect of academic and social life of students in a caring, supportive, stimulating, and challenging environment in order to achieve the school's motto, "Sarathak Sikshya: Sarathak Jiwan."

Life at Pathshala

Life at Pathshala

Library

The library system is based on two concepts: classroom library and e-library. The library program is facilitated by trained, skilled and experienced librarians. There are a number of printed and electronic resources. Individual study room has also been managed with the concept of "Let's All Read Now" for small-group discussion and reading.

Ultra Science Lab

For a deeper comprehension of concepts as well as practical knowledge of the subjects, well-furnished and facilitated subject specific laboratories with the latest technology for Physics, Chemistry, Zoology, and Botany are managed, ensuring the international safety standard.

IT Karkhana

In our Science and Computer Laboratories, we have the most up-to-date instructional tools, such as Information and Computer Technology (ICT), to enrich learning experiences and build critical thinking and problem-solving skills.

YATAYAT

Pathshala provides well-managed shuttle system to a wide range of places in the Kathmandu Valley. Security and comfort are taken well care of.

KHANPIN

The refectory at Pathshala ensures healthy and balanced lunch and snack options meeting the students' physical and mental development. The canteen menu includes nutritiously rich Nepali food varieties.

Club Activities

Club Activities

Apart from the designated curriculum, Pathshala considers different non-academic activities as an indispensable part of learning. Assessing to it, each student is encouraged to participate in different club activities for physical, mental and social well-being.

Beyond the Classroom: Life Experiences

Community Service

We motivate our students to value their communities and contribute constructively to the society as a whole. Compassion is one of our key values, and students are given opportunities to discover the actual meaning of socialization. Grade XI students are involved in a 40-hour community service so as to acquaint themselves with the local community.

International Tour

In order to make our students familiar with global settings and scenarios in relation to diverse cultures, religions, languages and heritage, they are taken on an international tour every year.

Biology Tour

The objective of the tour is to provide the students with real and experimental exposure to flora and fauna to understand the natural world better from an environmental perspective.

Physics Tour

Physics students are taken to various industrial estates to study about mechanism, technological infrastructure, and other scientific advances and discoveries.

IT Tour

Students are given exposure to different technologies and innovations through domestic and international expos.

Business Tour

Business tours to different corporate houses, industries, and state-owned enterprises.

Courses Offered

We offer the following subjects in Grade XI and XII.

Compulsory Subjects

Nepali	English
Social Studies and Life Skill Education <i>or</i> Mathematics	

Students will select three subjects, one from each optional group. They can also select one more subject from the remaining option as an extra credit

Jurisprudence and Legal Theories
Psychology

Group B

Biology
Business Studies
Procedural Law
Computer Science

Group C

Chemistry
Economics
Constitutional Law
Marketing

Group D

Environment Science
Finance
General Law
Mass Communication

Assessment System

As a part of assessment, Cyclical Assessments and Term Exams take place at a regular interval. Cyclical Assessments, which work as the forms of continuous assessment system, are conducted within the period of forty-five working days. Two term exams are conducted in an academic year. Grade XII students have to sit for the board exams conducted by NEB. In addition to the Grading System, Pathshala Pre-Uni Program also implements an international testing system in Math, Science, and English to determine their level of proficiency in regional and global standards.

Pre-Uni Team

Pathshala Pre-Uni Program has qualified, experienced, and compassionate faculties to care for and educate the students. Material designing, teaching pedagogy, assessment, classroom management, parental participation, and communication systems are among the skills that the faculties receive through regular training and workshops.

Support and Services

University Preparation and Academic Enrichment

This program is especially designed to prepare students for their further studies. Quantitative and Verbal Reasoning tests are administered to students. Different subject related materials are developed to facilitate them for medical, engineering, IELTS, and SAT preparation.

Students with any difficulty in choosing the subjects in the secondary level (Grade 11) are also individually counseled by a team of subject-experts.

Special Session for Information and Idea Sharing

As a part of support to the students, we run sharing session every week. We have a team of teachers to mentor and interact with small groups of students. Agenda are prepared after discussing with the students and genuine ideas are brought into the level of implementation.
